THE PROBLEM

13.4Cr investors & 3,900 desks lack verified data

9 in 10

active traders lose money

SEBI's FY25–FY26 studies show ₹1.06 lakh crore in annual net losses. Retail and prosumer decisions rely on tips and hunches rather than backtested fundamentals.

Scattered

research, backtest & desk tools

Analysts and investors jump between scanned exchange PDFs, ratio screeners, backtesters and spreadsheets—losing hours and context at every hop.

Unverified

answers from general-purpose AI

General-purpose chatbots sound confident but hallucinate figures on Indian filings. Without a verified XBRL and filing warehouse, AI cannot be trusted.

Investors don't lack information. They lack a trustworthy way to turn it into a decision.

SEBI equity derivatives studies (FY25–FY26) · NSE Market Pulse, Jul 2026: 13.4 Cr registered investors · SEBI intermediary directory (Oct 2026)

THE SOLUTION

Anvest: one AI that researches, tests and plans with you

Ask: grounded answers

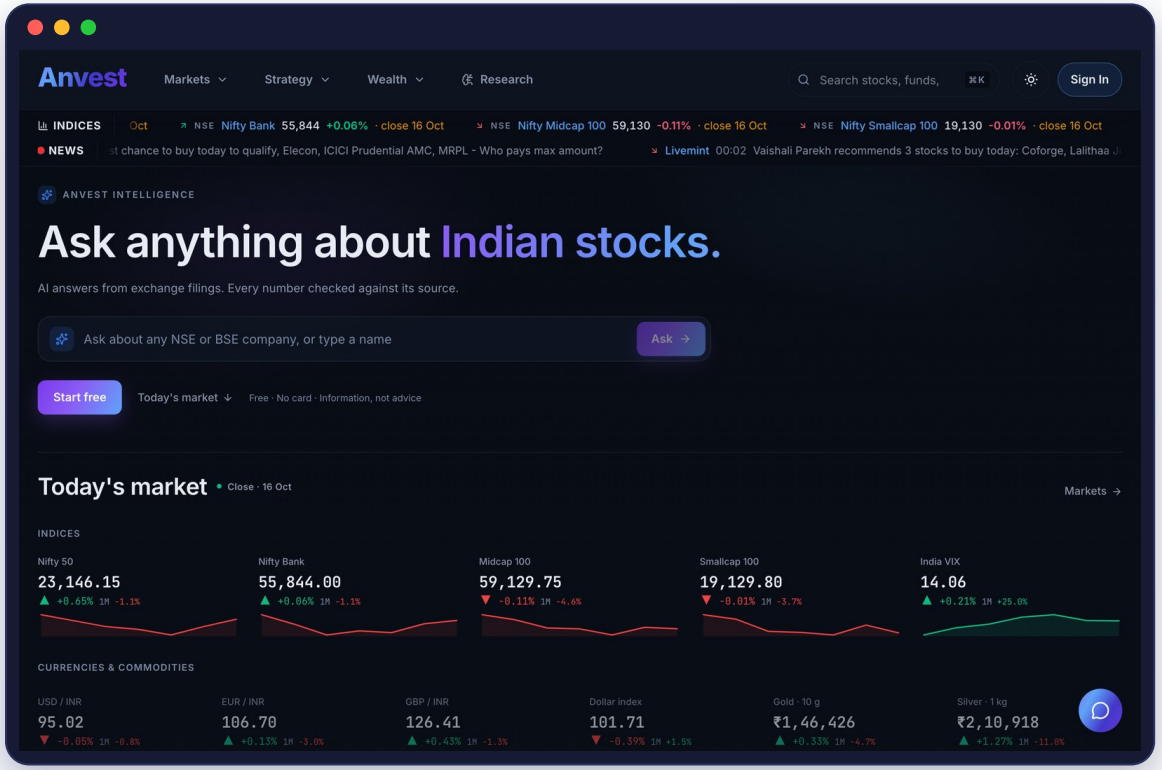

Plain-English questions answered from exchange filings and results, with the sources shown. If the data isn't there, Anvest says so.

Test: ideas become evidence

AI turns an idea into an explicit screen, backtests it with real Indian trading costs, then lets you practise with virtual money.

Allocate: one unified workspace

Evaluate stocks, IPOs, mutual funds, bonds and macro stress scenarios on the same verified data engine.

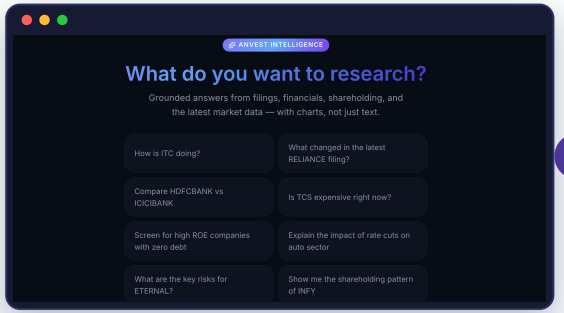

"Every number checked against its source": live workspace at anvest.in for desks & prosumers

HOW IT WORKS

From a question to a tested strategy, in one flow

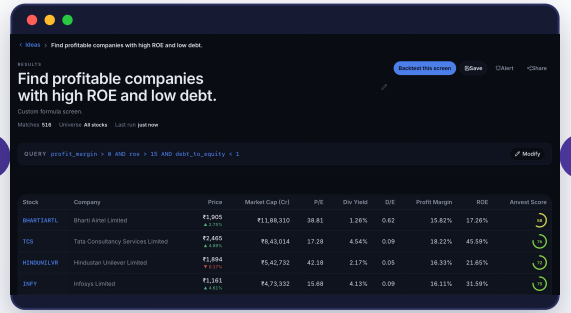

1 ASK

Ask in plain English

“Find profitable companies with high ROE and low debt.”

2 SCREEN

AI builds the screen

Intent becomes explicit, editable filters across 6,137 companies, with a one-click backtest.

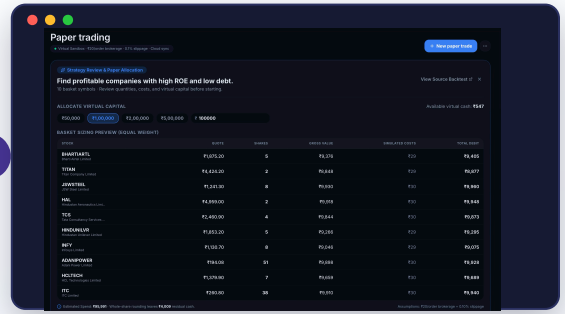

3 BACKTEST

Test it on history

Brokerage, STT, stamp duty and slippage built in; alpha, drawdown and Sharpe reported, with every rule shown.

4 PRACTISE

Practise, then act

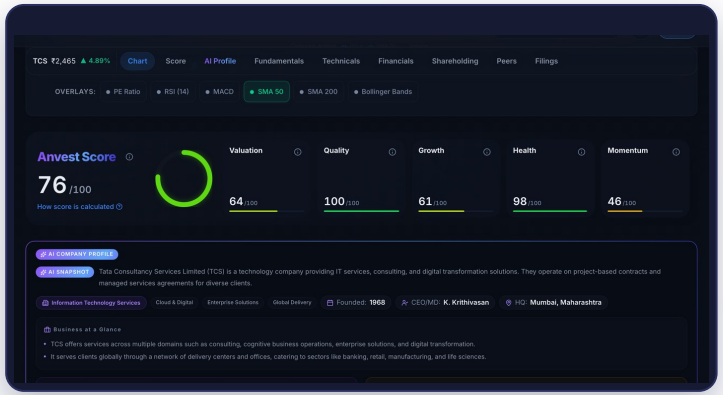

Paper-trade the strategy with virtual cash and review every decision in a journal.

Verified live on 19 Oct 2026: this prompt generated a 516-stock screen (ROE > 15%, D/E < 1), a 1Y costed backtest and a 10-stock paper basket.

AI interprets. Engines compute: the model never does the arithmetic, and answers link back to their sources.

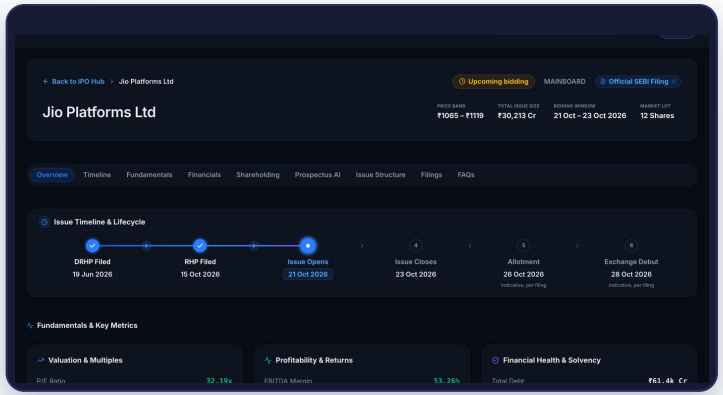

LIVE TODAY

Market stress simulator

How a portfolio behaves in a sell-off or an inflation shock

Curated screens

Promoter buying, FII and DII accumulation, quality

WHY NOW

Four shifts make this the moment

AI can finally read filings

Language models can now read and explain filings. Trust depends on verified, citable data underneath, which is what Anvest has built.

Retail algo trading is now regulated

SEBI's April 2026 framework mandates exchange-registered algos and SEBI RA registration for strategy providers—creating a compliant moat.

Brokers are going agent-native

Zerodha's Kite MCP and peers now expose accounts to AI agents. Those agents need a grounded research brain behind them.

A new generation of investors

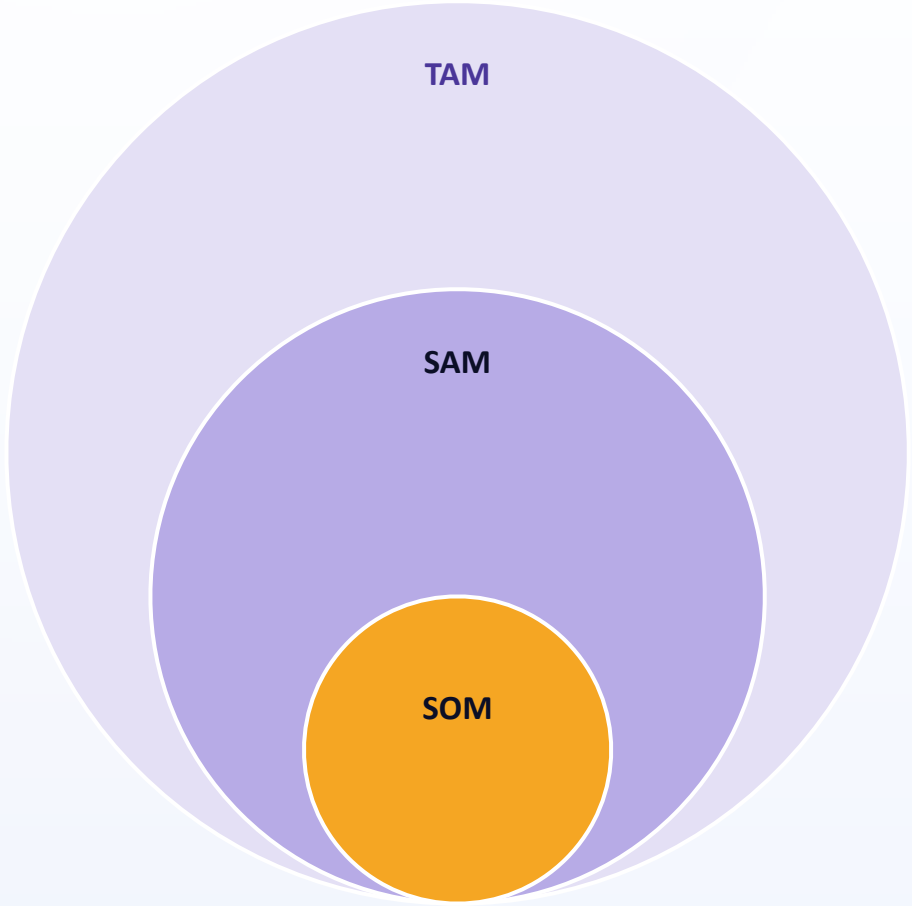

13.4 crore unique investors are registered with NSE, while regulators push for explained, accountable research.

Proven willingness to pay for grounded AI: AlphaSense reached $600M+ ARR at a $7.5B valuation (Jun 2026). Anvest delivers institutional filing intelligence at Indian Desk & Pro price points.

COMPETITION

Why a customer chooses Anvest

Customer task	Anvest	Screener.in / Tijori	Trendlyne	StockGro / Streak	General AI chat
Explain a filing, with its sources	**Live: cited answers from XBRL & filings**	Metered AI credits (₹500 in Premium); filing alerts	Earnings call summaries; no full-filing Q&A	Stoxo AI chat; Streak has no filing Q&A	Unverified; hallucinates on Indian filings
Turn an idea into editable filters	**Live: plain English to editable formula screen**	Manual ratio queries; AI screen assistant	AI screener creation (Premium)	Technical scanners only (Streak)	No live screening database
Test it with stated costs	**Live: STT, brokerage, stamp duty & slippage built in**	No historical strategy backtesting	Screener backtesting (excludes custom slippage)	Technical candle backtests; no XBRL rules	No backtesting engine
Practise with virtual money	**Live: virtual capital basket + trade journal**	Watchlists only; no paper trading	Watchlists only; no paper trading	Technical paper trades; no Stoxo paper trading	No paper trading
See portfolio and planning effects	**Live: portfolio X-ray, MF overlap, bonds & stress test**	Equity watchlists; no MF overlap or bond analytics	Portfolio health report & basket execution	Analyst trade calls & technical baskets	Generic text guidance only

One account takes a question from cited evidence to a costed test and a paper trade

Investing and planning together: stocks, IPOs, funds, bonds and retirement

Unmetered AI filing research included in Pro and Desk tiers

Verified across live platforms (Oct 2026): screener.in · tijorifinance.com · trendlyne.com · streak.tech · stockgro.club. 100% match on spot-checked Q2 FY27 NSE XBRL filings.

THE MOAT

The moat is the data engine beneath the AI

Ingest
Prices, filings, XBRL, NAVs and prospectuses, every night

Repair and OCR
Fixes malformed exchange filings; reads scanned small-cap PDFs

Verify
Identity checks, cross-validation and sector-aware rules

Ground
Cite the filing, or say the data isn't there

Serve
One AI across research, screens, backtests and plans

6,137
listed companies, full-universe XBRL

2.89M
corporate announcements

1.35M
indexed passages, refreshed daily

5,405
active AI company profiles

991
mutual fund schemes

NSE's post-FY23 XBRL carries malformed context dates. Annual figures hide inside Q4 filings. Small-cap filings are often scans. Our deterministic repair + OCR pipeline resolves these across 6,137 companies with 100% source traceability.

THE FUTURE OF TRADING

Retail trading is going algorithmic. Anvest is the on-ramp

54%

of NSE cash-market turnover is algorithmic

67%

of equity-derivatives turnover (73% in stock futures)

1 Apr 2026

SEBI's retail algo framework applies to all brokers

Execution is regulated; pre-trade testing is the open white space.

Idea	Ask in plain English	LIVE
Rules	AI writes transparent, white-box rules	LIVE
Evidence	Backtest with real Indian costs	LIVE
Practice	Paper-trade with virtual cash	LIVE
Live	Deploy through partner brokers, subject to empanelment and approvals	NEXT

The opportunity: bridge fundamental filing intelligence with rule-based strategy testing. Investors build and paper-trade white-box rules today; live deployment unlocks via partner brokers upon SEBI RA registration (funded this round) and exchange empanelment.

NSE Market Pulse, Dec 2025 (turnover share, FY26 to Nov) · SEBI retail algo circulars of 4 Feb 2025 and 30 Sep 2025

BUSINESS MODEL

Four revenue engines on one platform

Anvest Plus and Pro

₹199–₹599 / month

Self-serve tiers: unmetered AI filing Q&A, costed backtests, alerts and portfolio X-ray. Pro matches Screener's ₹4,999/yr with AI included.

SELF-SERVE SAAS

Anvest Desk

₹2,999 / seat / month

For SEBI RAs, RIAs, PMS desks and distributors: coverage-list filing digests, cited research and shared workspaces (1-to-5+ seat tiers).

FIRST REVENUE

Intelligence API and MCP

Licence + usage

Brokers, wealth apps and AI agents embed Anvest's grounded answers, or license its cleaned filings data.

PILOT-READY

Strategies, baskets and algo

Subscription + revenue share

RA-backed model baskets and exchange-registered strategies, deployed through partner brokers.

AFTER APPROVALS

Rollout sequence: Desk B2B seats and self-serve Pro first, followed by broker MCP/API licensing and post-RA strategies.

TRACTION

Built, live and growing without a marketing rupee

SHIPPED AND LIVE

- Grounded AI research copilot
- Natural-language stock screener
- 6,137 stock pages with Anvest Score and AI profiles
- Strategy backtesting with Indian costs
- Paper trading and trade journal
- IPO hub with prospectus analysis
- Mutual fund X-ray: cost and overlap
- Bonds, G-Secs and yield calculators
- Wealth, retirement and stress simulators

~100 early organic sign-ups (Oct 2026) with zero CAC; Desk pilot outreach underway

Nightly ingestion of prices, filings, NAVs and news

9 tools live across stocks, IPOs, MFs, bonds, backtesting & paper trading

12 months from first commit to full platform, no outside capital

Next 90 days: convert first 10 paid Desk pilots · public checkout launch · full 6,137-page SEO indexing · first broker MCP pilot

GO-TO-MARKET

Land with professionals. Compound through partners

Professional seats

Founder-led sales to 3,900 SEBI-registered RA, RIA and PMS firms (starting with 1-to-5 seat boutique desks), expanding to 3.5L distribution professionals.

Search built from source data

6,137 stock, 991 mutual fund, IPO and bond pages answer long-tail filing queries for high-intent, zero-CAC organic acquisition.

Partners and AI agents

Broker and wealth-app integrations through API and MCP reach millions of investors without paid acquisition.

Shareable answers and creators

Every cited answer, screen and backtest is a shareable link. Education creators join on referral terms, within SEBI's finfluencer rules.

SUBSCRIPTION TIERS

Free

Public pages, screens, 3 AI queries/month

Plus ₹199/mo

Weekly researchers: portfolio X-ray & alerts

Pro ₹599/mo

Unmetered AI Q&A, backtests & paper trading

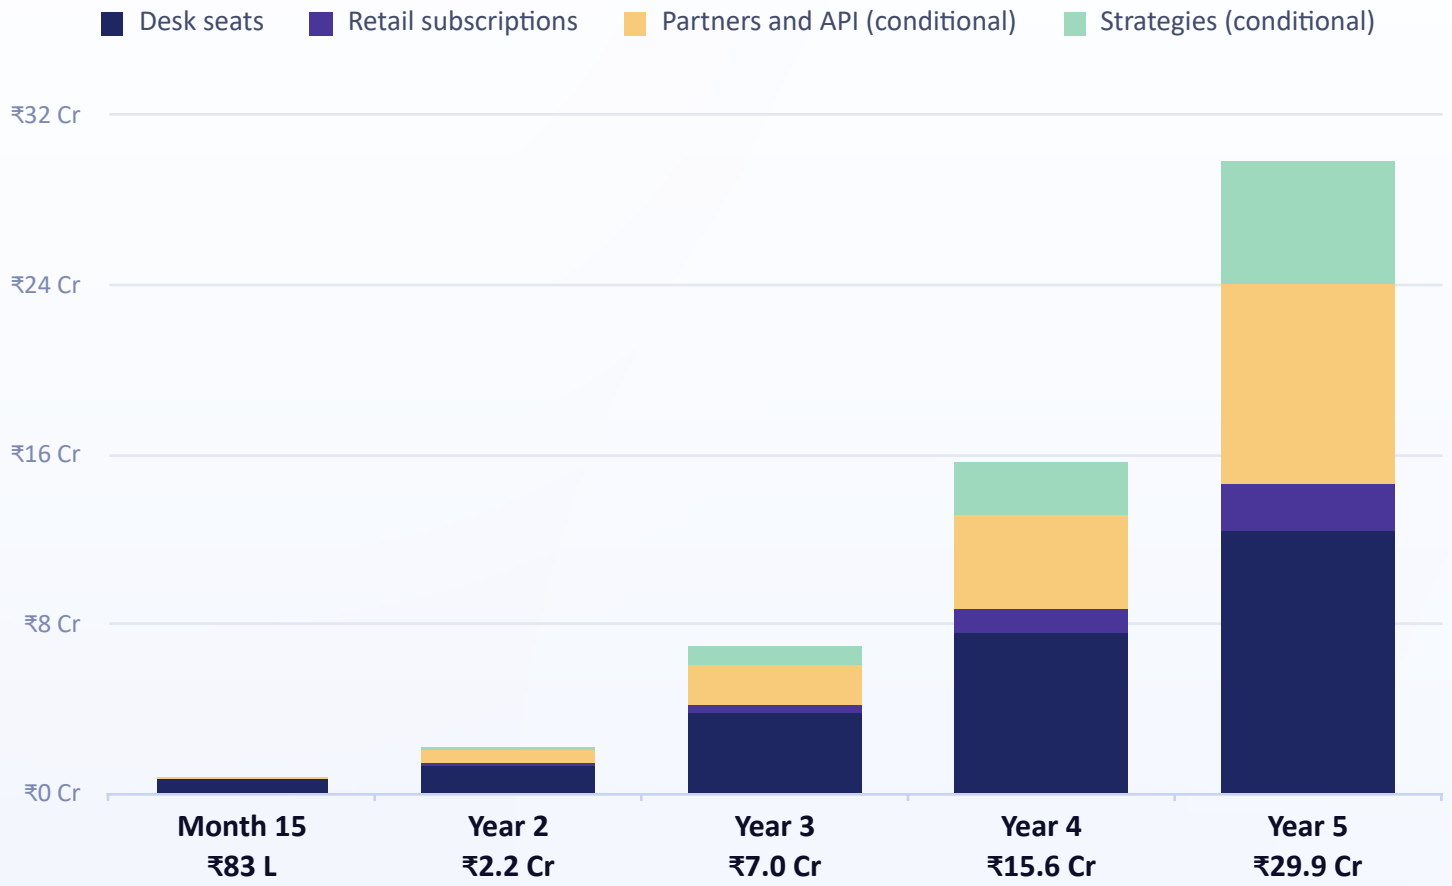

Desk ₹2,999/seat

Analyst & adviser desks (1 to 5+ seat teams)

Screener Premium charges ₹4,999/yr with metered ₹500 AI credits; Anvest Pro includes unmetered grounded AI answers and costed strategy backtesting.

FINANCIAL PLAN

A base plan for this round, and a path to ~₹30 Cr ARR

THIS ROUND · MONTH 15

	$400K base	$700K upsize
ARR run-rate	**₹83 L**	**₹1.2 Cr**
Desk teams	**43**	**62**
Paying partners	**2**	**3**
Total cash runway	**~22 months**	**~30 months**

SCENARIO CONDITIONS

- Series A near Month 18 funds 13 sellers by Year 5
- Strategies launch after SEBI RA & broker empanelment
- Partner API contracts use tiered per-user pricing

Bottom-up operating plan: core SaaS (Desk + Retail) reaches ₹14.6 Cr ARR by Year 5; B2B API partners and RA strategies add ₹15.2 Cr as gates clear.

TEAM

A founder who has already built the hard part

Harsh Bhardwaj

Founder

- B.Tech, Electronics and Communication, IIT Guwahati (2015–19)
- Senior Engineering Lead building production agentic LLM systems
- Seven years building high-throughput backend and distributed systems at New Relic, Shiprocket, Weave and Jaguar Land Rover.
- Solo-built Anvest's XBRL repair pipeline, verification engine and 9-module platform in 12 months with zero outside capital

FIRST HIRES FROM THIS ROUND

1. **Growth and partnerships lead**
   Sells Desk pilots and broker integrations
2. **Data engineer**
   Owns ingestion, coverage and data quality
3. **Full-stack and quant engineer**
   Strategies, alerts and the path to live algos

With $700K upsize: adds second B2B seller in Month 8. Onboarding SEBI compliance counsel and capital-markets advisory bench.

Domain edge already earned in production: malformed XBRL dates, Q4-only annual figures and scanned PDFs, all solved.

THE ASK

Raising $400K–$700K Seed: what each amount proves

$3.5M post-money cap · CCD/CCPS · identical terms for every investor

$155K
38.75% of $400K

Team
Growth lead, data engineer, full-stack and quant engineer

$70K
17.50% of $400K

Compliance and infrastructure
SEBI RA registration, exchange data licence, scaled serving and inference

$175K
43.75% of $400K

Growth, founder and reserve
Desk pilots, launch, CAC tests, founder salary and a 17.5% reserve

Plan spend M1–18: $330K (₹2.85 Cr) base · $410K (₹3.55 Cr) upsize.

$400K BASE PROVES BY MONTH 15		$700K UPSIZE ADDS	
₹83 L	ARR run-rate (~$87K)	₹1.2 Cr	ARR run-rate (~$124K)
43	Desk teams (~227 seats)	62	Desk teams, with a second seller
2	paying partner integrations	3	paying partner integrations
RA	SEBI research-analyst registration	~30 mo	total cash runway
Public	head-to-head benchmark, published		

Base raise provides ~22 months of total cash runway (~25+ months at Month-18 net burn), leaving the 17.5% reserve untouched.

Series A-ready in 15–18 months

Every Indian investor deserves an analyst, a quant and a planner.

Anvest puts all three behind one question.

Institutional depth. Retail reach. One verified data engine.

Harsh Bhardwaj · harsh@anvest.in · live at anvest.in

APPENDIX

Trust and compliance, built in

Data accuracy	Answers show the filings they draw on and pass a numerical check against that evidence before they are returned. Coverage gaps are shown, not estimated. Corrections ship as versioned releases.
Regulation	Informational by design: no buy, sell or hold calls and no target prices. SEBI RA registration is funded in this round and positions Anvest for the retail algo framework.
Market data	End-of-day exchange data today; licensed institutional & delayed feeds budgeted this round for Desk teams and public pages, plus broker OAuth for retail.
Verification proof	100% exact match on spot-checked Q2 FY27 NSE XBRL filings; publishing a 100-task head-to-head benchmark (accuracy, latency, cost) vs. Screener, Tijori & Trendlyne.
Key-person depth	Runbooks, health-checked nightly jobs and documented architecture. The first hires add data and customer-facing depth.

APPENDIX

Operating model: the month-15 bridge

Engine	Base drivers ($400K)	Base	Upsize ($700K)
Desk seats	Founder 1 team/mo; seller 3 teams/mo once ramped; 2% monthly churn; 1–5 seat Desk plans averaging ~₹2,245 net/seat	**₹5.1 L**	**₹7.3 L**
Partners	2 integrations live (months 10 and 14); 4,000 active users each, growing 6%/month, at ₹15 per user	**₹1.4 L**	**₹2.2 L**
Retail	10,192 monthly users; 0.3% convert each month; 5% monthly churn; ~₹200 net per subscriber	**₹0.4 L**	**₹0.5 L**
Net MRR at month 15	After 18% GST and launch discounts; ARR run-rate = MRR × 12	**₹6.9 L**	**₹9.9 L**

Unit economics (base): gross margin ~44% at Month 15 (amortizing fixed data/serving base), scaling to ~85% by Year 5 · Desk CAC ≈ ₹0.85 L per 5-seat team (~8-month payback)

Bottom-up monthly operating model factoring 18% GST, payment gateway fees, semantic query caching and exchange data licensing.

APPENDIX

Long-term scenario: drivers and conditions

Exit	Sellers	Monthly users	Retail subs	Desk seats	Partners (users)	Strategy subs	ARR
Month 15	2	10,192	186	227	2 (9,593)	—	**₹83 L**
Year 2	5	24,015	496	464	4 (38,832)	374	**₹2.2 Cr**
Year 3	9	84,016	1,746	1,391	6 (1,06,700)	3,056	**₹7.0 Cr**
Year 4	12	1,69,058	4,519	2,810	8 (2,45,235)	8,487	**₹15.6 Cr**
Year 5	14	3,40,177	9,635	4,571	10 (5,23,995)	19,298	**₹29.9 Cr**

Sellers include the founder.

Series A near month 18

Funds sellers and Series A marketing; monthly-user growth 11% a month to month 36, then 6%

Partner contracts

Eight more integrations from Month 20, using tiered per-active-user and enterprise licensing as partner volume scales

Strategies

Start at month 22 only after SEBI RA registration, exchange empanelment and a partner broker; ₹250 a month net per subscriber

APPENDIX

Every capability has a commercial job

Product capability (live today)	Commercial role to test	Engine
AI research and screening	Frequent research tasks that support subscription demand	Plus, Pro, Desk
Backtesting, paper trading and journal	Repeated strategy evaluation and a reason to upgrade	Pro
Wealth planning, calculators and guides	Broader acquisition and recurring planning needs	Free to Plus
Professional coverage lists and team workspaces	Higher-value team subscriptions	Desk
Broker and API integration	Paid distribution of proven research capabilities	Partners and API
Approved strategy execution (future)	Later monetisation of an established testing workflow	Strategies

Product-led funnel: free calculators, IPO hub and curated screens drive zero-CAC organic discovery, converting power users and analysts into Pro and Desk tiers.

APPENDIX

Expansion roadmap

H1

THIS ROUND: 0–18 MONTHS

Launch and validate

M1–M6: First 10 paid Desk teams, public checkout, 100-task benchmark & SEBI RA filing · M7–M12: First broker MCP/API pilot & 25 Desk teams · M13–M18: RA approval & ₹83L–₹1.2Cr ARR.

H2

SERIES A

Scale the platform

Wealth and learning depth, more partners and AI-agent distribution, team plans for advisers and distributors, alerts on every holding.

H3

GROWTH

From insight to execution

Exchange-registered strategies through partner brokers, a strategy marketplace, more markets, and advanced quant research for professional desks.

Each new business line carries its own approvals and business case; this round's budget funds H1.
